Catalysing a digital revolution in health and care

WIN 3rd Annual Conference – 24 January 2017
At NHS Digital, our vision is to harness the power of information and technology to make health and care better.

Our role is to be the national information and technology partner to the health and care system.
Our business is to design, build and run the health and care system’s national technology assets

1.3M items a day are prescribed using the Electronic Prescription Service

N3 is the biggest private network in Europe

Our GP Online services receive 680,000 patient views per month

The Secondary Uses Service enables payments for £30bn of NHS services every year
We are implementing the next generation of technologies to improve health and care outcomes

More integrated care
Better support for clinicians
New tools for self-management
Data for patients, system leaders and researchers
Our agenda 2016 - 2020

• Deliver ‘Paperless 2020’ programmes
• Drive digital maturity
• Leverage our national assets
• Creative partnerships with industry
• Enable industrial strategy
• Sponsor innovation (eg. NHS Innovation Accelerator with NHSE)
1. Incubation and acceleration

**RAIDPlus**
Integrated mental health urgent care test bed

1. Service integration
2. Predictive analysis
3. Supported self-care
2. Innovation pipeline

How can we support innovation to meet health and social care challenges?

**Advances and inventions**
- Horizon scanning
- Research and learning
- Stakeholder relationships

**Partnerships and collaborations**
- Underpinning architecture
- Create environment for pilots
- Code4health
- Sandpits, hack events
- INTEROpen

**Accelerating adoption**
- Signposting
- Showcases and case studies
- Events & roadshows
- Supportive assurance
3. Regional ecosystems – Digital innovation in the West Midlands
4. The bigger picture – Industrial strategy

- Progressive partnership between industry and government
- Science and innovation vital to post ‘Brexit’ growth
- Tackle underlying economic and social problems
- Help innovators scale up
